Art Unit: 3724

1. Claims 4-12,14-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 14, the phrase "means shaped for enabling permanent fastening of the member into the centering member comprises" is not understood. What is this means? What is "the member". Are the "means" and the "centering member" the same thing?

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 13 is rejected under 35 U.S.C. 102(b) as being anticipated by Kytta '759, who shows in figure 6 a centering member having a base (38), a first boss having a trunk (42), a groove (22'), a head (26') and a 2<sup>nd</sup> boss having a trunk (40). As seen in figure 5, both of the trunks have a parallelogram cross-section.

4. Claims 4-12,14-18 might be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action, altho the confusing language makes it difficult to be certain.

5. Applicant's arguments have been fully considered.

Applicant has overcome the rejections under 112 and 103.

Applicant has overcome all of the 102 rejections except the one by Kytta, which is now based on a different interpretation of Kytta.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kenneth E. Peterson whose telephone number is 703-308-2186. The examiner can normally be reached on Mon-Thur, 7:30-4:30.
